Collection Overview

Repository: Archives Center, National Museum of American History

Creators: Herbert, Don, (Donald Jeffry), 1917-2007
Mr. Wizard Studios (Firm)

Title: Mr. Wizard Papers

Dates: 1906-2008

Bulk Dates: 1951-1995

Quantity: 26 cubic feet, 57 boxes, 1 oversize folder, includes photographs, audio, and moving image

Abstract: The collection documents, through printed materials, photographs, audio and moving image, Don Herbert’s career as a science educator under the persona of "Mr. Wizard" from 1951 until the 1990s.

Language: Collection text is in English.

Administrative Information

Acquisition Information

The collection was donated by Mr. Wizard Studios, through Thomas E. Nikosey, President, and Kristen K. Nikosey, Vice President, in 2014.

Separated Materials

Materials at the National Museum of American History

Related materials were donated to the Division of Medicine and Science. See accession 2014.0141.

2014.0141.01, Mr. Wizard's Experiments in Ecology, Series One: Microbes (science kit)
2014.0141.02, Mr. Wizard's Experiments in Crystal Growing (science kit)
2014.0141.03, Mr. Wizard's Experiments in Chemistry (science kit)
2014.0141.04, Fun with the Mr. Wizard Science Set (science kit)
2014.0141.05, Mr. Wizard's Science Secrets (science kit)
2014.0141.06, Mr. Wizard's Experiments for Young Scientists (book)

Materials at Other Organizations

UCLA Film and Television Archives

The collection consists of 770 moving image items in several formats: 16mm kinescopes; 1” videotapes; 2” videotapes; ¾” videotapes; and DVDs. The collection documents Don Herbert’s career as Mr. Wizard, from the early 1950’s to the mid 1990’s and includes such programs as Watch Mr. Wizard, Mr. Wizard’s World, and How About...

Processing Information

Collection processed by Alison Oswald, archivist, 2015. Finding aid authored by Alison Oswald with supplemental biographical and historical information contributed by Craig Orr, archivist.

Preferred Citation

Mr. Wizard Papers, Archives Center, National Museum of American History.

Restrictions on Access

Collection is open for research. Reference copies for audio and moving images materials do not exist. Use of these materials requires special arrangement. Gloves must be worn when handling unprotected photographs and negatives.

Social Security numbers are present and have been rendered unreadable and redacted. Researchers may use the photocopies in the collection. The remainder of the collection has no restrictions.

Ownership & Literary Rights

Collection items available for reproduction, but the Archives Center makes no guarantees concerning copyright restrictions. Other intellectual property rights may apply. Archives Center cost-recovery and use fees may apply when requesting reproductions.

Biographical Note

Donald Herbert Kemske (1917-2007) was the creator and host of Watch Mr. Wizard (1951–1965), Mr. Wizard (1971–1972), Mr. Wizard’s World (1983–1990), and other educational television programs for children devoted to science and technology. He also produced many short video programs about science and authored several popular books about science for children. So important was Mr. Wizard to scientific education on television that author Marcel LaFollette featured his photo on the cover of her book, Science on American Television: A History, University of Chicago Press, 2013.

Don Herbert was born Donald Herbert Kemske in Waconia, Minnesota on July 10, 1917. He was one of three children (sisters Betty and Dorothy) born to Herbert Kemske and Lydia Kemske (nee Poeppel). He officially changed his name in 1940 to Donald Jeffry Herbert. Herbert graduated from LaCrosse State Normal College in 1940 with a Bachelor of Science degree. In 1942, Herbert volunteered for the U.S. Army Air Corps and in 1943 began training as an aviation cadet and then pilot. During World War II, Herbert served in the 461 Bomb Group and 767 Bomb Squadron in Europe. He was discharged from the military service on July 29, 1945 as a captain and had earned the Distinguished Flying Cross and the Air Medal. After the war, Herbert worked at a radio station in Chicago and acted in children's programs,

Premiering on March 3, 1951 on WNBQ, a 14-station network in Chicago, Herbert’s *Watch Mr. Wizard* differed considerably from earlier attempts at scientific education on television. Those shows were either very technical, like the *Johns Hopkins Science Review*, or used magic tricks and comedy to hold viewers’ attention, like ABC’s *Science Circus* and CBS’ *Mr. I. Magination*. From the beginning, Herbert planned a serious, informative show for children, rather than their parents. Even though he had only minimal scientific training in college—he had been an English major at La Crosse State Normal College in Wisconsin—in his persona as Mr. Wizard, Herbert conveyed a sense of authority and expertise.

The show, broadcast live, was carefully scripted, meticulously researched, and smooth-flowing. Each week, Mr. Wizard—described by LaFollette as a “nonthreatening, easygoing, intelligent man with a smiling face” in shirtsleeves and tie (and the occasional lab coat)—carefully guided his youthful assistants through simple experiments. Using ordinary household items such as eggs, balloons, milk bottles, coffee cans, and knitting needles, Herbert explained larger scientific principles like gravity, magnetism, and oxidation. Although seemingly complex, the experiments actually were simple enough to be re-created by his young viewers in the classroom or at home.

Herbert’s winning combination of personality, grasp of science, and use of ordinary objects made *Mr. Wizard* a hit with viewers and made a lasting impression on science education in America. As LaFollette writes, the program “enjoyed consistent praise, awards, and high ratings throughout its history. At its peak, *Watch Mr. Wizard* drew audiences in the millions, but its impact was far wider. By 1956, it had prompted the establishment of more than five thousand Mr. Wizard science clubs, with an estimated membership greater than one hundred thousand.” After over 500 shows over fourteen and a half years, NBC abruptly canceled *Watch Mr. Wizard* in 1965. The last program under contract with NBC aired on June 27, 1965.

From 1954 to 1962, Herbert, appearing as Mr. Wizard, delivered “Progress Reports” during commercial breaks of the General Electric Theater. As with most commercially-sponsored shows, the progress being reported on was almost exclusively made by General Electric. Following the cancellation of *Watch Mr. Wizard*, he continued to use his Mr. Wizard persona in science education. In 1965-1966, he produced an eight-film-series, *Experiment: The Story of a Scientific Search*, which was broadcast on public television, and a series of twenty-minute films, *Science Twenty*, designed to complement the current science curriculum in the classroom (circa 1970).

Herbert’s television show was briefly revived in 1971-1972 as *Mr. Wizard*, in response to protests over the cartoons and commercials that flooded children’s Saturday morning prime viewing time, but it did not receive enough network support. Herbert appeared in commercials for several companies during the 1970s and briefly lobbied Congress on behalf of General Electric in 1975. In the early 1970s, Herbert also produced *Mr. Wizard Close-Ups*, thirty second spots that aired on NBC in the Saturday morning slot. In the late 1970s, he began collaborating with the National Science Foundation to create a series of short news briefs for television called *How About…* *How About* was an adult-oriented series of 80-second reports highlighting advances in science and technology. The reports were designed for insertion into existing commercial television programs.

In the early 1980s, Herbert returned to television in *Mr. Wizard’s World*, a faster-paced version of the original show that ran on the Nickelodeon network from 1983-1990. After its cancellation, reruns ran until at least 2000. During this time Herbert made numerous appearances on television news and talk shows, particularly the *Tonight Show* starring Johnny Carson, where he was a popular guest. In the 1990s, Herbert produced *Teacher to Teacher with Mr. Wizard*, a video series that debuted on September 27, 1994 on the Nickelodeon cable channel. The innovative educational series provided a candid, close-up and in-depth visit to classrooms of outstanding teachers using hands-on, inquiry-based techniques.
Herbert also published several books, including *Mr. Wizard's Science Secrets* (1952); *Mr. Wizard's Experiments for Young Scientists* (1959); *Mr. Wizard's 400 Experiments in Science* (1968); and *Mr. Wizard's Supermarket Science* (1980). Additionally, he designed science kits involving chemistry, crystal growing, ecology, and electronics, which were marketed by Owens-Illinois in the 1960s.

Herbert's hands-on techniques in demonstrating scientific concepts to children were the inspiration for numerous educators who followed his lead. As popular TV science educator Bill Nye wrote in a special to the *Los Angeles Times*, his "techniques and performances helped create the United States' first generation of homegrown rocket scientists just in time to respond to Sputnik. He sent us to the moon. He changed the world."

Don Herbert died in 2007, shortly before his 90th birthday. Soon after, the U.S. House of Representatives marked his passing: “Resolved, that the House of Representatives (1) expresses its appreciation for the profound public service and educational contributions of Don Jeffry Herbert, (2) recognizes the profound public impact of higher educational institutions that train teachers, (3) encourages students to honor the heritage of Don Herbert by exploring our world through science, technology, engineering, and mathematics fields; and, (4) extends its condolences to the family of Don Herbert and thanks them for their strong familial support of him.”

**Scope and Content Note**

The collection documents the career of science educator Don Herbert, who created and hosted child-oriented television programs on science subjects in which he assumed the persona of Mr. Wizard. In addition to a documentation about his early personal life, the collection also documents his *Watch Mr. Wizard* television show as well as his other television, radio, and educational activities.

The collection includes correspondence, contracts, writings, publications, newspaper clippings, speeches; awards, photographs; episode files relating to *Watch Mr. Wizard* and other educational programming, moving image, and audio recordings.

---

**Arrangement**

The collection is arranged into eight series.

**Series 1: Biographical Materials, 1906-2007**

**Series 2: Awards, 1948-2000**

**Series 3: Speeches, 1966-1994**

**Series 4: Publications/Writings, 1966-2004**

**Series 5: Newspaper Articles, 1944-2007**

**Series 6: Educational Programs/Projects, 1951-2008**

Subseries 6.2: *Watch Mr. Wizard*, 1954-1989

Subseries 6.3: *General Electric Theater*, 1956-1958

Subseries 6.4: Instructor Magazine, 1964-1965

Subseries 6.5: *Experiment*, 1963-2003

Subseries 6.6: *Silence of Science*, 1966

Subseries 6.7: CBS National Science Test, 1967

Subseries 6.8: General Electric, 1974-1976

Subseries 6.9: Mr. Wizard Collection...Fun Things, circa 1975

Subseries 6.10: *Mr. Wizard Close-up*, 1968, 1975

Subseries 6.11: Challenge with Mr. Wizard, 1976

Subseries 6.14: *Mr. Wizard's Whadda Ya Know Show*, circa 1981

Subseries 6.15: *Correspondent Science News*, circa 1987

Subseries 6.16: *Just a Minute from Wizard*, 1988

Subseries 6.17: Teacher to Teacher, 1993-2004

Subseries 6.18: *Mr. Wizard's World*, 1971-2004

Subseries 6.19: Mr. Wizard's Studio, 1990-1992

Subseries 6.20: Mr. Wizard Institute, undated

**Series 7: Photographs, 1951-2001**

**Series 8: Audio Visual Materials, 1951-2004**

Subseries 8.1: Supplemental Documentation, 1972-2004

Subseries 8.2: Moving Image, 1951-2004

Subseries 8.3: Audio, 1966, 1977

**Names and Subject Terms**

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:
Subjects:
Science--Study and teaching
Television personalities
Television--educational shows

Types of Materials:
Awards
Books--20th century
Contracts
DVDs
Motion pictures (visual works)--20th century
Notes
Photographs--Black-and-white photoprints--20th century
Research
Scrapbooks--20th century
Scripts (documents)
Slides (photographs)--20th century
Speeches
Storyboards
Television programs
Videocassettes

Names:
Mr. Wizard
Container Listing

The biographical materials consist of photographs, correspondence, marriage certificates, birth certificates, agreements and contracts for theater work, letters of reference from the State Teachers College (La Crosse, Wisconsin), report cards, newspaper clippings, poems, yearbook pages, and programs for plays. Much of the biographical information was assembled by Herbert and arranged in chronological order. The Army Air Corps documentation comprises the bulk of the biographical materials.

The Army Air Corps materials contain photographs, newspaper clippings, maps, telegrams, money, opera programs, notes, certificates, invitations, physical examination records, and other ephemera relating to Herbert's service in the United States Army Air Corps, 461 Bomb Group and 767 Bomb Squadron in Europe. The majority of the materials date from 1940 to 1947, although there are some reminiscences from a 1952 visit to Italy by Don and Maraleita Herbert as well as a 1991 letter from a family member seeking information about a fellow Army Air Corps officer, and a 2011 reminiscence of Barton Dean, a fellow Army Air Corps officer. Herbert enlisted in 1942 and began service in February of 1943. He rose to a rank of captain and was discharged in 1947. The photographs document crew members and other military personnel Herbert served with both on base and while traveling in Tel Aviv, Cairo, and Rome. A Naples street artist rendering (1944) of Herbert in colored pencil is included here.

Also included are materials documenting Maraleita Dutton Herbert, the first wife of Don Herbert. These include photographs, commissary passes, and articles about her work as a journalist/reporter in Santa Monica, California.

The general correspondence, 1951-2007, consists of congratulatory letters about the Watch Mr. Wizard program and speaking invitations.

Series 4: Publications/Writings, 1966-2004

This series contains published and unpublished writings of Don Herbert. *November’s Eve* and *Out of the Crowd* are two unpublished radio drama program proposals. Herbert wrote these while in Chicago, presumably in the 1950s. This series is arranged chronologically.

Box 3, Folder 1  
*Beginning Science with Mr. Wizard: Flying*, 1960

Box 3, Folder 2  
*Beginning Science with Mr. Wizard: Heat*, 1960

Box 3, Folder 3  
*Beginning Science with Mr. Wizard: Light*, 1960

Box 3, Folder 4  
*Beginning Science with Mr. Wizard: Water*, 1960

Box 3, Folder 5-8  
*Mr. Wizard's Experiments for Young Scientists*, 1959, 1964  
7 books, One copy in Japanese and one in French. French title is “13 Experiences pour L’Apprenti-Chercheur.”

Box 4, Folder 1  
*Segreti della scienza*, 1966  
1 book, In Italian.

Box 4, Folder 2-3  
*Kilauea, Case History of a Volcano*, 1968

Box 4, Folder 4  
*Mr. Wizard's 400 Experiments in Science*, 1968  
3 books

Box 4, Folder 5  
*Secret in the White Cell, Case History of a Biological Search*, 1969

Box 4, Folder 6  
*Mr. Wizard's Experiments in Chemistry*, 1970  
2 books

Box 4, Folder 7  
*Mr. Wizard's Experiments in Ecology, Series 1, Microbes*, 1971  
2 books

Box 5, Folder 1  
*Mr. Wizard's Experiments in Crystal Growing*, 1972  
2 books

Box 5, Folder 2  
*Mr. Wizard's Mystery Garden*, 1973

Box 5, Folder 3  
*Mr. Wizard's Supermarket Science*, 1980

Box 5, Folder 4  

Box 5, Folder 5  
*My Life as Mr. Wizard* (unedited manuscript), 2001

Box 5, Folder 6  
Mr. Wizard flash files, 2001

Box 5, Folder 7  
Flash files, illustrated brief reports of fascinating examples of science and technology, 2004

Box 5, Folder 8  
November Eve (proposed radio drama), undated

Box 5, Folder 9  
Out of the Crowd (proposed radio program), undated]
Series 5: Newspaper Articles, 1944-2007
This series contain newspaper and magazine clippings about Don Herbert and his professional career as the persona Mr. Wizard. The series is arranged chronologically.

Box 5, Folder 10   Newspaper clippings, 1944
Box 5, Folder 11   Newspaper clippings, 1951
Box 5, Folder 12   Newspaper clippings, 1952
Box 6, Folder 1    Newspaper clippings, 1953

Series 6: Educational Programs/Projects, 1951-2008

Subseries 6.1: *It's a Curious Thing* (radio program), 1951, 1954

*Box 8, Folder 1*

Documentation for *It's a Curious Thing* includes a video and audio typescript (undated), newspaper clipping (undated), and a 1954 report, authored by Jules Power, of Jules Power Productions, Inc. discussing the concept, format, and content of *It's a Curious Thing*. Additionally, there is a 1975 letter from Don Herbert to Jules Power with the attachment for the original *It's a Curious Thing* proposal written by Don Herbert and Jules Power, undated.

The show's format featured four to five curious things, including one thing from a guest celebrity. The host, Don Herbert opened the program with three of the objects, providing a clever clue to the panel and home audience. If the panel was unable to answer correctly, Herbert provided an answer and demonstrated the object.

This series forms the bulk of the collection and consists of episode files that were prepared for the television series *Watch Mr. Wizard* from 1951 to 1965. The files document the meticulous care and preparation that Herbert put into each episode. Each file--one per episode--contains Herbert's notes for the show; the day's script; black and white photographs taken during rehearsals to plan the experiment; diagrams on graph paper of where he and his young assistants would stand and move; and notes about the technical needs, such as lighting and equipment.

The files also contain his research notes on the science being demonstrated. Herbert prided himself on his scientific acumen and consulted with academics to ensure he got it right. According to historian Marcel LaFollette, a physicist from New York University, was employed by the show as a science advisor during the 1960s to "ensure the authenticity of the demonstrations."

Files for *Watch Mr. Wizard* starting in 1954-1965, include scripts and notes only. Beginning in 1958 the files include photographs. Jules Power Productions, Inc. produced the show. There are approximately sixteen episode files that do not follow the numbering system (e.g. 63-2) assigned by Herbert. The 63 represented the year 1963 and 2 represented the episode number. These files are arranged at the end of the series, and if available, the title, number and date of the episode are listed.

Additional information found in this subseries includes a file about the child actors that were featured on *Watch Mr. Wizard*. The documentation includes photographs, resumes, biographical sketches, correspondence, and handwritten notes. Photographs and some biographical information for Betty Sue Albert, Pamela Fitzmaurice, Philip Fox, Edmund Gaynes, Brad Hermann, Alan Howard, Douglas Lane, Rita McLaughlin, Buzz Podewell, Irene Storm, Stanley Vincent, and Tommy White, are included.

Subseries 6.3: *General Electric Theater*, 1956-1958

In 1952, Don Herbert became a progress reporter for *General Electric Theater* hosted by Ronald Reagan. This was the company's institutional television program which presented General Electric as a good citizen, leader in research, vital to national defense, and inspiring example of profitable enterprise. The company delivered messages or reports that were approximately three minutes in length and covered scientific, technological and business advances within General Electric.

The documentation in this suberies consists of General Electric product literature and brochures, photographs, including photographs of Ronald Reagan, two video and audio typescripts for General Electric educational projects (1961) and newspaper clippings.

Subseries 6.4: *Instructor Magazine*, 1964-1965

*Instructor Magazine* was an illustrated monthly magazine designed expressly for the education of young people. Each issue contained a "Science for the Classroom from Mr. Wizard" feature (one page) written by Don Herbert and Morris H. Shamos of the Department of Physics at New York University. The documentation in this subseries consists of correspondence, notes, typescripts of the features and in some instances, the printed copy of the article.

_BOX 26, FOLDER 15_ Gas Temperature vs. Volume, 1964

*Experiment* was a science program produced, co-written and hosted by Don Herbert in 1962 which debuted in 1966 with funding from the National Science Foundation and the Alfred P. Sloan Foundation. The series aired on National Educational Television and was produced by Prism Productions, Inc. Each program focused on a scientist and discussed the problems each scientist faced during the research and discovery phase. Don Herbert narrated and illustrated the series using specially built models and demonstrations. The films were also available for purchase and rental. The materials consist of scripts, photographs, contact sheets and negatives, notes, and transcripts of interviews conducted with some of the scientists featured. Release forms for the "Weather by Numbers" program exist.

Subseries 6.6: Silence of Science (proposal), 1966-1967  
*Box 27, Folder 18*  
This subseries contains information about Don Herbert's proposal "To Overcome the Silence of Science" written in 1966. A master draft, the typescript outlines the lack of communication between the sciences and the humanities and the lack of understanding by the public of science. The document proposes to fill the "silence of science' with a series of television programs and a course of study for adults in which the public would be made more aware of science through definition, importance, motivation, techniques, limitations, and truth. The documentation includes the proposal, budget estimates, and correspondence. Herbert's proposal was not funded.

Subseries 6.7: CBS National Science Test, 1967  
*Box 27, Folder 19*  
The CBS National Science Test television program aired April 4, 1967. Herbert hosted and conducted demonstrations for the program. The documentation includes a typescript of the question-and-answer demonstration (1967); and an independent contractor's agreement signed by Herbert (1967); a national science quiz for biology (undated) and a national science test with true/false and multiple choice questions (undated).

Subseries 6.8: General Electric, 1974-1976  
This subseries consists of storyboards, correspondence, an employment contract, drawings, photographs, video and audio scripts, and a 1974 report (results from a focus group) for Don Herbert's commercial on energy sources for General Electric (GE). GE produced a television commercial to communicate to the general public that electricity is a form of energy and not a source of energy. Don Herbert explained the versatility of electric energy by demonstrating how electricity can be made with any of today's fuels. Also included is a film treatment for, *Energy of Tomorrow...Here Today*, (1975) and 1976 *Second Electrical Century Program*, (undated) and the agreement between Herbert and GE (1975).

*Box 27, Folder 22* General Electric Electricity Information Program (commercials), 1974-1975  
*Box 27, Folder 23* Commercial for General Electric, 1974-1975  
*Box 27, Folder 24* General Electric Electricity (film treatment), 1975-1976

Subseries 6.9: *Mr. Wizard Collection....Fun Things to Know and Do* (program proposal), circa 1975  
*Box 27, Folder 25*  
This subseries consists of a typescript television program proposal (1975) for children eight to twelve years of age. The program format was a three-minute and thirty-second spot in which Mr. Wizard addresses the home audience directly. Child assistants are not used.

Subseries 6.10: *Mr. Wizard Close-Up*, 1968, 1975
This subseries contains correspondence, photographs, and a proposal to the National Science Foundation (1975) for a program to examine a common object showing significant and overlooked details. The program was targeted at six to twelve year old children. The format was to challenge a child assistant to identify the object while off camera Mr. Wizard narrates with clues. Also included is documentation for a motorized microscope stage control which includes drawings, photographs and correspondence with patent attorneys about the novelty search for motorized remote control systems for microscope stage displacement. No patent was pursued.

Box 27, Folder 27-28  Mr. Wizard Close-Up (proposal and correspondence), 1975
Box 35, Folder 1 Motorized microscope, 1968

Subseries 6.11: Challenge with Mr. Wizard , 1976

Box 27, Folder 29

This subseries contains a proposal (1976) by Don Herbert for a half-hour television program to present scientific puzzles, tricks, and stunts that challenge the viewer at home. Two child guest stars assist with the challenges.

Subseries 6.12: Science Twenty with Mr. Wizard , 1969-2004

This subseries documents Herbert's work with the film series Science Twenty. The film series was designed to complement the current science curriculum (circa 1970) and each film is narrated by Don Herbert. Prism Enterprises, Inc. was founded by Don Herbert to produce and distribute creative educational films, with students observing experiments and demonstrations as though they were doing them. Herbert also created matching games, multiple choices tests, do-it-yourself experiments, teasers, rhymed couplets, puzzles, and hidden clues.

Box 30, Folder 12 Program Overview, 2004

This subseries documents "How About...," an adult-oriented series of 80-second reports highlighting advances in science and technology. The reports were designed for insertion into existing commercial television. The program was underwritten by the Public Understanding of Science section of the National Science Foundation and the General Motors Research Laboratories.

The materials contain project summaries and overviews, the National Science Foundation proposal (1984), press releases, and support letters for the program.

Subseries 6.14: *Mr. Wizard's Whadda Ya Know Show*, circa 1981

*Box 30, Folder 13*

This subseries consists of a brochure for a television science magazine featuring Mr. Wizard, circa 1981. The half-hour series was targeted at children and their families and featured Supermarket Science, Safari, What's This? Challenge, Frontier, Everyday Magic, Oddities, and Science Spectaculars.

Subseries 6.15: *Correspondent Science News*, circa 1987

*Box 31, Folder 9*

*Correspondent Science News* was a report feature for commercial television featuring Don Herbert. He reported on current advances in science, technology and medical research. The majority of the reports were 90 seconds in length. The subseries contains a bound proposal/report (1987) outlining the program series.

Subseries 6.16: *Just a Minute from Wizard*, 1988

This subseries documents *Just A Minute from Mr. Wizard*, a proposed series of 104 sixty-second informational features which would include a sponsor's commercial. Designed for all ages, the features are narrated by Don Herbert and cover various aspects of science as well as current developments and advances in technology and medical research. Also included with the proposal is an assessment of research for the program citing significant conclusions.
Subseries 6.17: *Teacher to Teacher*, 1993-2008

This subseries documents *Teacher to Teacher with Mr. Wizard*, a video series that debuted on September 27, 1994 on the Nickelodeon cable channel. The innovative, educational series provided a candid, close-up and in-depth visit to classrooms of outstanding teachers using hands-on, inquiry-based techniques. Herbert felt having a camera in the classroom watching teachers at work and interviewing them about what they were doing and why was an effective method. The series was broadcast on Nickelodeon *Cable in the Classroom*, a non-profit formed to use the nation-wide resources of cable television for the benefit of America's schools.

The materials consist of program summaries, press releases, newspaper clippings, photographs, newsletters, correspondence, and a transcript of a 1994 phone interview with Sally Shuler (Deputy Director of the National Science Resource Center), Dennis Harlan (President of Mr. Wizard Foundation), Scott Lorenz (Publicist), and Don Herbert. In the interview, Herbert and the participants discuss what hands-on- inquiry-based science is, its benefits, and the adoption of this teaching method.

Subseries 6.18: *Mr. Wizard's World*, 1971-2004

*Mr. Wizard's World*, was a similar version of *Watch Mr. Wizard* developed by Don Herbert in 1983. The program aired on the cable channel Nickelodeon. The program also included a segment titled "Ask Mr. Wizard" where Mr. Wizard answered questions sent in by viewers of all ages. Select segments from this television series were included in the *Mr. Wizard's World* Science Video Library which included teachers guides. See Series 8: AudioVisual Materials.

**Subseries 6.19: Mr. Wizard's Studios, 1990-1992**

Mr. Wizard's Studio was the organizational name under which Don Herbert created his series *Watch Mr. Wizard* in 1951. Originally maintained by Don Herbert, it was carried on by the staff of Mr. Wizard Studios, Inc.

Box 32, Folder 4  Mr. Wizard's Studios (background), circa 1990

**Subseries 6.20: Mr. Wizard Institute, undated**

*Box 34, Folder 10*

The Mr. Wizard Institute Files consist of samples of scientific, medical and technological information assembled by Herbert for publication in a newspaper. The proposed format was a four panel cartoon strip. Some of the sample information includes Saving Bald Eagles, Treating Foals, and Experimental Volcanoes.

This series consists of fan mail addressed primarily to Mr. Wizard. The letters are handwritten and in typescript. Many of the letters are from children and in some instances include hand-drawn pictures. Later fan mail includes print-outs of emails.

- Box 33, Folder 1  Fan mail, undated

- Box 35, Folder 1-2  Guest Appearances, 1967-1989

These materials document Don Herbert's guest appearances on television, in radio spots, and in person, as the persona Mr. Wizard from 1967 to 1977. The materials contain handwritten and typescript notes detailing the title of the program, the host name(s), contact information for the producer, and what he demonstrated and discussed, station channel lists, itineraries, media information sheets, agendas, and correspondence. Herbert appeared on many popular television shows including, but not limited to, the Tonight Show, Mike Douglas Show, Today Show, Dennis Wholey Show, Regis Philbin Show, Della Reese Show, Sketch Henderson Show, John Davidson Show, Elwood Glover Show (Canada), Late Night with David Letterman, Merv Griffin Show, and the Pat Sajak Show. Herbert also notes which shows he did not appear on and if the demonstrations did not work on air. The materials are arranged chronologically.

- Box 27, Folder 26  Mr. Wizard science kits in stores, 1963-1970
- Box 32, Folder 5  Play it Safe Contest (Central Maine Power), undated
Series 7: Photographs, 1951-2001

The photographs consist of black and white prints, color prints, transparencies, negatives, and slides documenting Don Herbert as Mr. Wizard. The majority of the photographs depict "on set" experiments/demonstrations by Don Herbert and with child actors Rita McLaughlin and Alan Howard; on location shots; and other studio shots for many of Mr. Wizard's educational television programs.

Portraits of Don Herbert, used for publicity purposes, can be found throughout this series. Other individuals depicted include Norma Kasell Herbert, second wife of Don Herbert, Ronald Reagan, Perry Como, Jane Mansfield, Dave Garroway and various production staff members. Many of the photographs for the television series Experiment were taken by Charles Moore for Prism Productions, Inc. Family photographs of Don Herbert's parents, siblings, children, and other relatives are found in Series 1: Biographical Materials. The materials are arranged chronologically.

Other photographs documenting Watch Mr. Wizard episodes can be found in Series 2: Educational Programs and Projects. Each episode file contains black and white photographs taken during rehearsals to plan the experiment and diagrams on graph paper showing where he and his young assistants (Rita McLaughlin and Alan Howard) would stand and move. Additionally, other loose photographs can be found throughout the collection, especially for the science program Experiment in Series 2: Educational Programs and Projects.

Box 42-44  Watch Mr. Wizard , 1951-1965

Series 8: Audio Visual Materials, 1951-2004

This series consists of moving image (16 mm, 3/4" U-Matic and 1/2" VHS), audio cassettes and reel-to-reel tapes for educational programs developed by Don Herbert in his role as Mr. Wizard. The supplemental documentation consists of teacher guides, specifically for the Mr. Wizard's World Science Video Library series. Other materials include correspondence, procurement and contract information, and scripts for many of Herbert's film projects.

Subseries 8.2: Moving Image, 1951-2004

Box 56, Item 1326.1 | **Watch Mr. Wizard**, 1951
1 videocassette (u-matic)
Kinescope recording

Box 55, Item 1326.2 | **A Night Out with Mr. Toad**
1 motion picture film, *Duration: 11:00.* ; Color, sound ; 16mm
Presents close-up studies of commonly known non-poisonous night creatures as seen through the eyes of Mr. Toad. Shown are the cricket, the cockroach, the pill bug, the sow bug, the snail, the millepede, the katydid, the weevil, the moth, the mouse, and the tomato worm. Includes scenes of the sunset, of twilight, of flowers closing, of the rising of the moon, of the formation of dew, and the growth of mushrooms. Ken Middleham Productions.

Box 55, Item 1326.3 | **The Bottled Candle Mystery**, [1960s?]
1 motion picture film, *Duration: 06:12.* ; Color, sound ; 16mm
#322, forms part of "Science Close-Up."

Box 55, Item 1326.4 | **Common Colloids**, 1969
1 motion picture film, *Duration: 07:00.* ; Color, preview print ; 16mm
A solution, mixture, and colloidal suspension are defined and prepared by stirring sugar, sand, and powdered milk into glasses of water.

Box 55, Item 1326.5 | **The Ghost**, [1960s?]
1 motion picture film, *Duration: 08:00.* ; Color, sound ; 16mm
Animal adaptation and ecology. #323, forms part of "Science Close-Up."

Box 55, Item 1326.6 | **Inside a Laser**, [1960s?]
1 motion picture film, *Duration: 10:00.* ; Color, sound ; 16mm
#3115, forms part of "Science Close-Up."

Box 55, Item 1326.7 | **The Mystery of Plant Movement**, [1960s?]
1 motion picture film, *Duration: 10:30.* ; Black and white, sound ; 16mm
#318, forms part of "Science Close-Up."

Box 55, Item 1326.8 | **Scientists at Work**, [1960s?]
1 motion picture film ; Color, sound ; 16mm
#325, forms part of "Science Close-Up."

Box 55, Item 1326.9 | **Secret in the White Cell**, 1969
1 motion picture film, *Duration: 11:00.* ; Color, preview print ; 16mm
Motion pictures made through a phase-contrast microscope by Dr. James Hirsch of Rockefeller University reveal how he discovered the process by which white cells (polymorphonuclear leucocytes) kill microbes in the body. Dr. Zanvil Cohn, Dr. Hirsch's associate, is shown solving the preliminary problem of how to extract granules from the white cell for chemical analysis. Conclusive proof of Dr. Hirsch's theory is furnished by photographs taken by Dr. Dorothea Zucker-Franklin through an electron microscope. The film pictures for the first time how the enzymes in the granules within white cells are released to kill and digest microbes.

Box 55, Item 1326.1  
**Secret in the White Cell**, 1961
1 motion picture film, Duration: 11:00. ; Black and white, sound. ; 16mm
Motion pictures made through a phase-contrast microscope by Dr. James Hirsch of Rockefeller University reveal how he discovered the process by which white cells (polymorphonuclear leucocytes) kill microbes in the body. Dr. Zanvil Cohn, Dr. Hirsch's associate, is shown solving the preliminary problem of how to extract granules from the white cell for chemical analysis. Conclusive proof of Dr. Hirsch's theory is furnished by photographs taken by Dr. Dorothea Zucker-Franklin through an electron microscope. The film pictures for the first time how the enzymes in the granules within white cells are released to kill and digest microbes. #314, forms part of "Science Close-Up."

Box 55, Item 1326.11  
**Mouse Activated Candle Lighter**, [1960s?]
1 motion picture film ; Color, sound ; 16mm
#321, forms part of "Science Close-Up."

Box 46, Item 1326.12
