Bracero History Archive Oral Histories

The *Bracero History Archive* collects and makes available the oral histories and artifacts pertaining to the Bracero program, a guest worker initiative that spanned the years 1942-1964. Millions of Mexican agricultural workers crossed the border under the program to work in more than half of the states in America.

The oral histories below are of women who were involved in the Bracero program, most of whom were female relatives of braceros or farmers. Sources are divided by language.
